Subject: RuggedJet RJ-3050 End of Availability

Attention: All Partners and Resellers of the RuggedJet RJ-3050 Printer

Dear Partners and Resellers,

Brother has discontinued the RJ-3050 and is no longer able to ship this product. The RJ3050Ai is replacing the RJ3050. All orders for the RJ3050 must be converted to the RJ3050Ai. Service and repairs will continue to be available for the RJ3050 for the next 5 years. Technical Support will continue to be available with no predetermined end date.

Key Dates

September 1, 2019 – End of availability official announcement. Products are no longer orderable.

September 1, 2024 – Last day for service and repairs

Replacement Model

The replacement model for the RuggedJet 3050 is listed below.

Discontinued Product	Replacement Product	Notes
RJ3050	RJ3050Ai	RJ3050Ai is also Apple MFi® Certified

Accessories

All RJ3050Ai accessories are compatible with the RJ-3050.

Development Support

Contact Product Management for transitioning your applications to the RJ-3050Ai.

Additional Benefits

The RJ3050Ai is iOS AirPrint compatible allowing you to print directly from iOS devices without an app, internet connection or a network connection. Simply connect directly to the printer via Wi-Fi Direct and print using AirPrint.

The RJ3050Ai is also iOS MFi compatible which allows you to print via Bluetooth directly from your iOS app. Brother provides the software developer kit for integrating this function.

Sincerely,

Raul Palacios
