Freedom to Mount or Carry your Brother Printer.

FREEDOM ARCHITECTURE

by Brother Mobile Solutions

An unsecured printer in a moving vehicle or precarious position is unsafe and inefficient. That's why Brother offers an array of available mounts and carrying cases to help make you more portable. And our alliance partners offer even more options for traveling with your Brother printers.

Freedom Architecture allows you to carry and mount Brother PocketJet and RuggedJet printers virtually anywhere in many positions and in nearly any environment. Right-side up, upside down, sideways, vertical, or horizontal — you're even free to design your own custom mounting frame or carrying case with the help of Brother's accessory development guide. Now you have the freedom to create your ideal mobile office environment!

Mounting Options

Pre-configured and custom mounts help safely secure your printer, protecting it from loss or damage. They are often used in truck cabs, forklifts, ambulances, police cars, service vehicles, motorcycles, and boats. Some mounts even provide a power source connection, eliminating the need for a battery. They're perfect for on-demand printing needs in industries such as field services, logistics, airlines, public safety, transportation, and warehousing. Well designed mounts complement our rugged and reliable printers with form-fitting design, adding little to the overall size of your printer.

Carrying Options

When it comes to mobile printing, Brother believes that field workforces deserve the ultimate in simplicity and reliability. That's why our engineers have designed several carrying case options to house your printers — from easy and compact options like the simple canvas pocket case to our most comprehensive solution that comes with a decurling mechanism, drop protection, and vehicle mounting options. There's even a rubber case solution to provide protection in the most challenging environments. Brother mobile printer cases were engineered to meet the specific size, weight, durability, and ergonomic requirements of today's truly mobile professional.

MOUNTING OPTIONS

Here are just a few of the different ways our partners and customers have integrated Brother printers into their vehicles, motorcycles, and forklifts. The options are endless. Contact a Brother representative or one of our alliance partners to configure a solution that will work for you.

CARRYING OPTIONS

FAN FOLD CASE

PAFFC-710LHC

- Provides a flat writing surface, document clip, and carrying handle
- Allows for attaching a tablet or for mounting in-vehicle
- Designed for high volume printing

COMPACT ROLL CASE w/STRAP

PA-RC-700SS

- Neatly fit an 8-inch thermal roll paper and the PocketJet into a compact case
- Accommodates both Wi-Fi and Bluetooth technologies, enabling printing from the user's laptop, tablet, or smartphone

RUGGED ROLL CASE w/DECURLER

PA-RC-001

- 100 Sheet Roll capacity
- Easy Access Charging
- Media viewing window
- Double-walled HDPE to keep printer, paper, and battery snugly and securely enclosed

ROLL UP CARRYING CASE

LBX019

- Lightweight case that rolls up like a burrito with the PocketJet printer and fanfold media
- Outside slot for business card or company logo

SHOULDER STRAP

PA-SS-4000

- Shoulder Strap, Open Loops

Brother carrying cases hold most everything you need to print on-the-fly from the Brother PocketJet and RuggedJet mobile printers, including an internal power extension cord for easy access charging. For optimal connectivity, the hard cases accommodate both WiFi and Bluetooth technologies, enabling printing from the user's laptop, tablet or smartphone. Ideal for field service, public safety, emergency services, pest management and home healthcare.

TOUGH, WATER RESISTANT CASES

Protective carrying solutions for just the printer or the printer and a tablet that protect in extremely harsh environments. Optimal for route accounting or any application that requires durable carrying cases.

LBX064

- Shoulder strap with 2 metal swivel clips and padded nylon sleeve
- Adjustable length from 39" to 70" end to end
- Nylon Shoulder Pad: 6.5" x 2.5"

Compatible with RJ4 Series Mobile Printers

LBX066

- 3/8" webbing handle with two metal swivel clips
- Attaches directly to printer
- Overall Length: Approx. 13"

Compatible with RJ4 Series and PJ7 Carrying Cases

LBX069

- Ballistic nylon case with 2 metal d-rings and clear vinyl over controls sealed with twill tape
- Rigid cover over paper exit and hook and loop for closure

Compatible with RJ 4200 series Mobile Printer

TOUGH, WATER RESISTANT CASES

LBX071

- Back web loops for mounting or belt use
- Ballistic nylon case with 2 metal d-rings and clear vinyl over controls sealed with twill tape

Compatible with RJ 4200 series Mobile Printer

LBX076

- Integrated carrying board for printer
- Slip in pouch with Velcro® brand flap, back to back
- Small rubber carrying handle
- Includes Shoulder Strap

Compatible with RJ 4200 series Mobile Printer

LBX078

- Ballistic nylon case with 2 metal d-rings and clear vinyl over controls sealed with twill tape
- Rigid cover over paper exit and hook and loop for closure

Compatible with RJ 4200 series Mobile Printer

Choose from various printer/tablet cases, that improve productivity while protecting your investment. When you're on the go, use hand truck buckles, carrying handles, and d-rings to meet your needs in rugged environments.

TaylorMadeCases.com

Taylor Made Cases, Inc. provides quality custom designed and manufactured lightweight protective holsters and cases for portable RFID, barcode scanners, personal data terminals, printers, and testing equipment for the automated data collection industry. We also offer a wide variety of accessories to compliment and ease the use of our products.

GamberJohnson.com

For over 65 years, Gamber-Johnson has been an industry leader in producing rugged, reliable and responsive mounting solutions for laptop and tablet computers, radios, light and siren controls, surveillance cameras, point-of-sale kiosks, printers, keyboards and more.

Havis.com

Havis manufactures mobile office computing and mounting solutions for a variety of industries. For over 80 years, its mission has been to increase worker productivity with products that are built to the highest safety and quality standards.

LEMSolutions.com

LEM takes the common vehicle space constraint issue "up and away" with a line of patented vehicle headrest printer mounts — the perfectly practical solution to a universal problem.

You can find additional mounting options and solutions from any one of our alliance partners. We also recommend you contact the integrators to help you configure the mobile technology to meet your needs.

ALLIANCE PARTNERS

Lund-Industries.com

Lund is celebrating over 40 years as a leader in the design, manufacture, and installation of public safety and commercial vehicular equipment. Proudly made in the USA, they offer reliable, configurable, and cost-effective Brother printer mounting solutions.

MobileMounts.com

Mobile Mounts provides best-in-class vehicle mounting solutions, docking stations, and accessory mounting. They partner with industry-leading manufacturers to offer professional and reliable installations that ensure the right fit for every vehicle.

PatrolPC.com

PatrolPC designs, engineers, and manufactures the UltraRugged™ RhinoTab® Mobile Data Terminal and docks exclusively for first responders. Both MDT and UltraRugged RhinoDock are 100% Made in USA.

RamMount.com

RAM® printer mounts make it easy to secure the Brother PocketJet and RuggedJet portable printers in your vehicle. These rugged and reliable mounts feature a form-fitting design with no sharp edges, adding little to the overall size of your printer.
